SUMMARY

Computer Science diploma student who builds and ships web projects (Python, Java, HTML/CSS, Firebase) and has completed hands-on security simulations with Tata and Cisco. Seeking a Web Developer / Software Engineering internship to apply the same practical, deadline-driven approach to production-level work.

EDUCATION

GMIT Polytechnic

06 2024 – 2027

Diploma in Computer Science and Engineering — CGPA: 8.67 | Davanagere, India

Adarsha Vidyalaya (RMSA)

05 2019 – 2024

6th Standard to SSLC — Percentage: 76.89% | Harapanahalli, India

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, HTML, CSS

Developer Tools: VS Code, CodePen, IDLE, Dev-C++

Technologies/Frameworks: Linux, GitHub, Firebase, Data Structures & Algorithms

PROJECTS

HackHub — India Hackathon Hub

2026

- Simplified hackathon discovery nationwide by delivering an installable, offline-capable PWA, built with HTML, CSS, and JavaScript on a Firebase Firestore/Authentication backend.

Portfolio Website

09 2025

- Presented my skills and education to recruiters in a single-page, mobile-responsive layout, hand-coded in HTML/CSS and deployed via GitHub Pages. [View live](#)

Password Generator

01 2026

- Helped users create stronger passwords across 4 character classes with adjustable length, by building a Python generator with configurable complexity rules.

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concepts
- Web Development
- Android Development

CERTIFICATIONS

- Cybersecurity Analyst Job Simulation — Tata (via Forage), July 2026
- Introduction to Cybersecurity — Cisco Networking Academy, July 2026
- Azure Fundamentals (AZ-900) — Microsoft / CloudThat, March 2026
- Microsoft Security Copilot Learning Path (5 modules: core features, embedded experiences, guided simulations) — Microsoft, June 2026
- Introduction to Generative AI and Agents — Microsoft, June 2026
- Development for Beginners & Generative AI — SimpleLearn

EXTRACURRICULAR

- Coding Competition — Problem Solving, Analytical Thinking & Root Cause Analysis. 12 2025
- Internship Common Aptitude Test (iCAT) 07 2026
